

# ALCATEL-LUCENT OPENTOUCH™ SUITE FOR SMALL AND MEDIUM BUSINESSES

Simplify your communications  
and maximise your business

Customer satisfaction is not just about the quality and value of your products and services. It is also about how quickly clients, partners and suppliers can reach you, how well they are greeted, and how long they need to stay online to have their questions answered.

Employee productivity increases when you can reach the right people at the right time on the right device. It increases when you eliminate time-wasters, such as missed calls and unnecessary travel. Productivity also improves when you enable new capabilities, such as working with remote and virtual teams, staying connected while traveling, or simply working from home.

Controlling costs is not just about getting a solid return on investment (ROI). It is also about managing expenditures – especially communications expenses – in a way that suits your budget and your organizational structure.

Alcatel-Lucent partners with you to put all the pieces together and simplify your communications. We can help you interconnect your people, their knowledge and your communications network so you can focus on growing your business.

### **TURN FIRST CONTACTS INTO REPEAT BUSINESS**

Satisfied customers generate repeat business, and effective communications can dramatically raise your level of service. Ensure that you handle incoming inquiries professionally with an efficient greeting system that welcomes clients by name and rapidly refers them to the right salesperson.

Deploy a phone system that allows you to quickly set up conference calls and reach your technicians, sales representatives, consultants and delivery staff anywhere, at any time.

## Connect the right people at the right time in a new enriched ecosystem tailored for SMBs

Ask Alcatel-Lucent to enhance your communications system so you can strengthen customer relationships and generate repeat business.

More than  
17 million users  
worldwide  
already enjoy  
the benefits of  
Alcatel-Lucent  
OpenTouch™  
Suite for SMB

### **INCREASE PRODUCTIVITY AND MOTIVATION**

Help your staff to share their knowledge easily and in real time or to work from home while enjoying full, secure access to company information. Enable seamless communications so staff can leave the building while they are on a call. Maintain a single directory for your mobile and office phone.

### **UNCHAIN YOUR STAFF FROM THEIR DESKS WITH WIRELESS PHONES AND HEADSETS**

Enable access to fixed and mobile phones with a single number. These time-savers simplify communications and increase productivity, and your result is a more efficient and cost-effective organization.

**Rely on Alcatel-Lucent to help you reduce the cost of doing business.**

### **MAKE YOUR NETWORK MORE COST-EFFECTIVE AND SECURE**

As an SMB, you have no time to waste on infrastructure management. You need a secure, always-on communications network that is competitively priced, low-risk and easy to manage.

Whether your workforce is growing rapidly or you are thinking of opening a new office or another warehouse, your communications network must be flexible, scalable and able to evolve with your changing needs. It should optimize your spending on a daily basis to help you generate immediate savings. The network should help you become more agile so you can quickly and easily adapt to changes in your market.

Alcatel-Lucent offers integrated communications solutions that include business-class traditional and IP telephony, secure e-mail and Internet, and shared access to agendas, directories, files and folders.

**Rely on Alcatel-Lucent to build your network while you build for the future.**

# Converged voice and data portfolio answers all the SMB customer's needs

The Alcatel-Lucent OpenTouch Suite for SMB portfolio includes a wide variety of desk-phones combined with rich voice/data collaboration and mobility solutions specifically tailored to meet SMB needs (see Figure 1).

The portfolio is reliable, open and standards-based. Alcatel-Lucent OpenTouch Suite for SMB is modular at every level – from communication suites and software licenses to communication servers and networking infrastructure that meet customers' exact requirements. You can buy the portfolio with a hardware warranty and a variety of services, evolving from a simple maintenance contract to a complete system with new applications and technology. Alcatel-Lucent OpenTouch Suite for SMB is future-ready, based on a powerful and flexible IP communication server, OmniPCX™ Office Rich Communication Edition (RCE) using standard protocols and offering a number of powerful features.

## EFFICIENT COMMUNICATIONS

A clear understanding of what your peers and partners tell you is the basis of any business relationship; but today in a BYOD world the audio quality seems to be the weakest link. Our new range of Premium DeskPhones are composed of five models called Alcatel-Lucent **8068, 8038/8039 and 8028/8029 Premium DeskPhones**. The enhanced ergonomics such as adjustable foot stand, alphabetical keyboard, backlit display, dedicated function keys, user friendly navigator as well as a dynamic set of accessories are all elements that enable a superior IP and digital telephony user experience. The five stunning Premium DeskPhones also offer a rich communication experience with an outstanding wideband audio quality either in hands free or using the comfort handset. All these elements facilitate and sublimate the user's business day-to-day tasks. These elegant devices complement and leverage all the rich telephony capabilities of the Alcatel-Lucent OmniPCX Office RCE platform.

The **8082 My IC Phone** delivers a multimedia communication experience with a seven-inch wide capacitive touch screen enriching communications and productivity at work. A peer-to-peer video call, as well as dedicated communication services serving the Manager-Assistant relationship enriches that SIP device capabilities.

The **8012 Deskphones** complement the low end of this newly designed phone family.

The **PIMphony™ Softphone**, personal communication manager, optimizes team performance by greatly reducing response time and eliminating missed calls. As for the new **PIMphony Touch\*\***, it is an innovative communication software client for Windows tablet and PC application leveraging modern UI and Windows 8.1 capabilities.

The **My IC Web for Office** is a web-based solution for call handling, which can be used with a standard browser, optimal for off-site use or at home.

The **My IC Social Networks** is a Microsoft Outlook plug-in that provides the capability of federating directories, presence information, and interacting with existing social networks within Outlook. This converged user interface also provides telephony services from OmniPCX Office RCE, unified communication, and an offline mode.

## CUSTOMER WELCOME

Customer satisfaction is enhanced from first contact, with an advanced call server that is modular, scalable, expandable, flexible and feature-rich.

- The phone- or PC-based attendant console provides a professional welcome that is easy to use, manage and understand, for a single receptionist or multiple sites
- Customers can talk to their preferred assistant when employees are reachable internally or externally on mobile or fixed phone, with no extra hardware needed
- Integrated system voice mail, with unified professional greeting ensures a consistent, professional approach

\*\* Available in 2015

- Intelligent call routing routes calls to the most skilled person, increasing customer satisfaction
- Embedded hotel application optimizes daily tasks and improves guest services

## TEAMWORK AND COLLABORATION

Teams can work together far more easily and increase their productivity when they have better control and the ability to monitor their communications.

- Alcatel-Lucent **PIMphony Softphone** allows easier supervision of team activities and improves both teamwork and customer satisfaction
- Plug-and-play audio conferencing with the Alcatel-Lucent **4135 IP Conference Phone module** allows businesses to reduce costs, particularly travel expenses

## ONSITE MOBILITY SOLUTIONS

With powerful Alcatel-Lucent OmniTouch **8118 and 8128 WLAN** Handsets and a single Wi-Fi® infrastructure for voice and data, as well as the DECT family (**500/500EX DECT, 8242 DECT & 8232 DECT**) employees can answer customer calls immediately, wherever they are, reducing costs and saving time with minimized call backs.

## OFFSITE MOBILITY

Employees can keep in touch with their business anytime and anywhere, benefiting from a range of offsite mobility services. With the one-number service, employees can use a single professional phone number while on the move and can retrieve business telephony services anywhere, resulting in reduced calling costs.

Employees have easy access to internal and customer contacts as well as Alcatel-Lucent OmniPCX Office RCE services, such as voice mail, call routing and call logs, from any location. The Alcatel-Lucent **OpenTouch Conversation** application – specifically designed for Windows Phone\*\*, Apple® iPhone® and Android® devices – can be quickly implemented to provide businesses with secure and enhanced mobility features. When inside of their company, employees can leverage the company WiFi for both voice and data, to decrease communications costs.

## COMBINED VOICE AND DATA INFRA-STRUCTURE

IP multisite networking saves communications costs with a single cable supporting a complete plug-and-play infrastructure for voice and data and transparent telephony services – a true end-to-end voice and data combined solution. Remote-site or remote-worker configuration provides full telephony services so employees can always stay in touch using a cost-effective, secured remote connection.

With the WLAN/LAN infrastructures, businesses can enjoy real cost savings with a single infrastructure for voice and data services whether they are powered by Ethernet or not.

\*\* Available in 2015
